A Chess-enthused Chemist Writes About a Like-minded Member of the same Profession

A Book Review by Dr. Ralf Jürgen Binnewirtz

Michael Negele
Ralf Binnewirtz, Wijk aan Zee 2015

Recently, our KWA secretary Claes Løfgren has given a short report on Michael Negele's book presentation in Braunschweig, dealing with the just published biography of Paul Felix Schmidt (PFS).

On this occasion Claes has already provided some information on PFS by way of linked pages and files.

Meanwhile I have prepared a [review of that book](#), destined for publication on our website. Due to Claes' preliminary contribution, I could do without including another short biography of the eponymous hero and lay more stress on other things instead. The fine English translation of my original German text was done by Eva Regina Magacs, the coauthor of the book.
