

Alessandro Sanvito, RIP 1938-2020

Our Honorary Member Guy van Habberney has informed us about the sad news that our old-time member Alessandro Sanvito passed away, and sent us the obituary below. In addition to it we republish Michael Negele's article *My unforgettable stay at Ermide's and Alessandro's home* which he wrote for our Chess Stalker Quarterly six years ago.

Alessandro Sanvito, 1938-2020

An encounter with Adriano Chicco in 1973 led to a fruitful cooperation between the two Italian Chess Historians which lasted 17 years. For Alessandro was not so much a collector, rather a historian of chess, especially of the early period up to 1700. He often said that so many new elements had come to light in the

past 100 years, that Murray (1913) ought to be updated. Quite a challenge... After the death of Adriano Chicco in 1990, he continued the latter's work. My own collection has 20 works by Sanvito, but there are many more. Most famous are probably the different bibliographies of Italian Chess, which culminated in 2015 in the publication *Bibliografia Italiana degli Scacchi*.

In 2010, our members Luca d'Ambrosio, Jurgen Stigter, Antonio Rosino and Siegfried Schönle co-authored a Festschrift in honour of Alessandro Sanvito (Refordis, 2010). The Chess Stalker Quarterly of February 2014 also contains a very nice article about Alessandro by the hand of Michael Negele.

I personally got to know Alessandro and his wife in Amsterdam in 2005 and found him to be a kind and generous man. Since then, he would always send me New Year's wishes (Auguri), but that stopped some 2 years ago. May he rest in peace.
