CSQ 25 - XI 2016

Certainly the beginning of Germany's 'fifth' or 'foolish' season on 11-11 and the simultaneous start of the World Chess Championship in New York City are not interrelated. Apart from that, we can offer today the November issue of our KWA newsletter – CSQ 25 will be the last number of the CSQ series in the conventional form. As customary, it is available in our [member section](#) – we hope you enjoy!

PS: The new website of CCI Germany is meanwhile online – have a look at www.cci-deutschland.de/.

PPS (15-11-2016): CSQ 25 slightly updated on p. 2 (Siegfried Schönle added).

PPPS (21-11-2016): Chess artist **Elke Rehder** has just published two contributions on her website - please see the page [The history of chess in the 19th century](#): "Chess magazines in Europe and the USA" as well as "Chess columns in newspapers" - both in English.

A pictorial report (in German) on the **CCI meeting in Altenburg** is online: www.schachmuseum.com/...

26-11-2016: Mario Ziegler has published a note on the Altenburg meeting, see his Chaturanga site: [Schachgeschichte im Geburtsort des Skatspiels](#).
