Hans Holländer: Arbeit am Labyrinth

The great cultural historian Professor Hans Holländer (1932-2017, see our obituary [Memories of Hans Holländer](#)) who produced so many fascinating essays and books on the game of chess has left us some texts from his last chess project. Austrian publishing house Sonderzahl (<http://www.sonderzahl.at>) has announced to publish them in April 2019 under the title *Arbeit am Labyrinth*. We recommend to make good use of the subscription offer and attach the information flyer (in German).
