Kórník Library now KWA member >> short notice

We are pleased to welcome **The Kórník Library of the Polish Academy of Sciences** (Biblioteka Kórnicka Polskiej Akademii Nauk) as a new (free) member of the Ken Whyld Association.

The Kórník Library is familiar to our members as the location (since 1955) of the famous chess collection of **Tassilo von Heydebrand und der Lasa** and as the venue of the International Conference of Chess Historians in September 2002 as well - the director of the library, Prof. Dr. hab. Stanisław Sierpowski, edited a [book](#) on this event in 2003 together with Prof. Vlastimil Fiala.

As the representative of the library, Prof. Sierpowski will be listed by name as a member of the KWA.

You will find more information on the Kórník Library at its [Homepage](#).
