New member: Jimmy Adams

We are pleased to welcome into our midst a new member from Great Britain, for Jimmy Adams (Hoddesdon) recently decided to strengthen the Ken Whyld Association. Not only on the British Isles Jimmy Adams is well-known as the editor of the Chess (Monthly) magazine, he also distinguished himself many times as an author, editor and typesetter of high-quality chess books; moreover - by translation from the Russian - he made several significant chess works available to Western readers. Obviously his main interests in this connection are game collections and tournament books, now and then he made an excursion into opening theory as well. As a collector of chess literature Jimmy is highly selective – therefore his collection is still manageable, and in any case he is very interested in chess history ...

Certainly we would be happy to meet Jimmy personally in London – maybe in the course of our regional UK meeting planned for the coming year!?
