Presentations during get-together in Wijk aan Zee

In addition to our earlier announcement of the informal meeting during the Tata Steel tournament at the Raindropchess shop in La Baliza (see below Informal KWA get-together during the Tata Steel chess tournament), we are pleased to let you know that there will be **two brief presentations** as well: Michael Negele will give an explanation about the new English language edition – in three volumes – of the Lasker book published in 2009, while Jurgen Stigter wil discuss the content of an old letter he found in Emanuel Lasker's Manual of Chess (London 1932) with comment on Lasker himself.
