The creation of FIDE in Paris in 1924

— Dominique Thimognier and Frank Hoffmeister

Here is the support for the 1st conference given in Budapest as part of the CH&LS General Assembly.

Dominique Thimognier presents an in-depth study of the creation of FIDE in 1924.

Dominique focuses in particular on the various protagonists of this creation, and he has uncovered some previously unpublished documents.

This work complements my series of articles on this website about events in Paris in 1924.

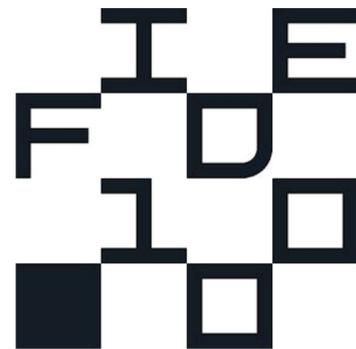

Here is an extract from the presentation text for the General Meeting on 13 and 14 September 2024.

In the first lecture, Dominique Thimognier, who runs the highly recommended website [Héritage des échecs français](#), reported on the creation of FIDE in 1924 with many new insights. He revealed that, on the one hand, famous players (such as Lasker) and officials (such as the Secretary-General of the British Chess Federation) had already supported the idea to establish a world chess federation before the first World War. On the other hand, the act of establishment at the margins of the 1924 Paris Olympiad was also the result of a spontaneous action of those, who were present at the end of the team championships. Some delegates appear to have acted without a clear mandate from their federation, and some federations (such as the Spanish Federation) had not even been founded yet. The question discussed at the conference as to whether the Finnish participant was present at the founding meeting or was added later still seems unresolved. It should also be noted that the long-simmering controversy between a players' association or a federation of nations was decided in favour of the second option, which was particularly favoured by England.

Les Echecs aux Jeux Olympiques

Les démarches entreprises par M. Fernand Gavarry, président de la F. F. E. pour faire admettre les échecs dans le programme des Jeux Olympiques de Paris 1924, quoique très favorablement accueillies dans les milieux gouvernementaux et sportifs, se sont heurtées à un règlement inflexible.

Le programme des Jeux a été établi une fois pour toutes à Lausanne et ne peut être modifié qu'en un Congrès Olympique international, convoqué par le Comité international olympique, seul juge

de tirer des jeux d'une Olympiade des enseignements pouvant entraîner une modification du programme.

M. Léon Bérard, ministre de l'Instruction publique et des Beaux-Arts, dans une lettre amicale adressée à notre Président, dit que, sur sa demande, il n'a pas manqué d'intervenir auprès du Comité Olympique français et regrette qu'une section « échecs » ne puisse être admise au programme des jeux de la VII^e Olympiade.

A warm welcome worldwide

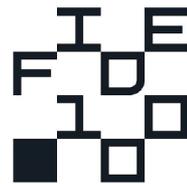

THE NEW INTERNATIONAL CHESS FEDERATION.
 Not so long after Dr. Emanuel Lasker, in reply to a question propounded, stated that, so far as another world's championship match was concerned, an international movement was necessary to bring it about, his suggestion seems to have been acted upon, although it is quite possible that such a move had been contemplated independently of the wish expressed by the former world's champion. Quite a few attempts have been made in the past to bring together the various chess interests of the world into one body, but until this year the well-meant efforts have been fruitless.

Ett världsschackförbund bildades på denna olympiad.
 Man beslöt att hålla nästa schackolympiad 1928 i samband med de olympiska spelen i Amsterdam. En av förbundets uppgifter varmed man snarast kommer att taga itu med blir fastställandet av regler för världsmästerskapet. Därför kan man ta för givet att förbundet går i förtäring om ormandet av landsmatcher, kanske också turneringar. Förbundets säte förlades första året till Schweiz.
 Till förbundets förste president valdes presidenten i Holländska schackförbundet dr. A. Rueb, och vice president blev L. P. Rees, hon, secretary i Brittiska schackförbundet Schweizaren M. Nicolet valdes till skattmästare, och sekreterare hos presidenten blev

Jonkher Strick van Linschoten. Sekreterare för förbundet är ännu ej utsedd men man kan ta för givet att det kommer att bli en schweizare.

Париж. По окончании турнира любителей, устроенного в связи с Олимпиадой, был по инициативе французского Шах. Союза, организован Всемирный Шахматный Союз. По мысли инициаторов он должен объединить шахматные организации всех культурных стран в одно целое. Германскому Шах. Союзу (самому большому в мире), который, к слову сказать, не был приглашен на участие в Олимпиаде, будет также предложено присоединиться к новому «объединению». В президенты этого В. Ш. С. избран д-р Рюб (прежде Голландец Шах. С.); вице-президент — Риэ (английский Британец Ш. С.); канцлер — Николе (канцлер Швейцарск. Ш. С.). Бюро Союза предложено устроить в Гааге, а пока (до открытия съезда, который намечен в 1925 году) оно находится в Швейцарии. На Бюро возложена миссия выработать к съезду устав союза, а также предпринять все шаги необходимые для упрочения и дальнейшего развития союза. Главной своей задачей союз считает организацию турниров (профессионалов и любителей), изменение правил игры, если в этом возникает необходимость, а также установление единой формы шахматной нотации (записи ходов). Идея организации Всемирного Шах. Союза не нова. Ее в свое время с жаром вынагал д-р Эм. Ласкер, причем мыслил себе эту организацию как профсоюз международных мастеров, разрешивший также и все вопросы «матерого шахматного порядка», как то, — организация матчей за первенство мира, устройство международных турниров и пр. не найдя достаточного отклика, он отступил от своей мысли. Такой же неудачей окончилась и венская попытка 1922 г. (в связи с происходившим тогда международным турниром).

Aus aller Welt. Schachereignisse des Jahres 1924. Schacholympiade in Paris.

Zum ersten Male seit Einführung der olympischen Spiele wurde im Juli 1924 den körperlichen Kämpfern ein Schachwettbewerb angegliedert, der den besten Spielern aller Nationen Gelegenheit geben sollte, die Amateurweltmeisterschaft im Schach zu erringen. Jedes Land hatte das Recht, die besten vier Amateurspieler nach Paris, dem Schauplatz der VIII. Olympiade, zu entsenden. In Vorkämpfen waren die Kämpfer zu sieben, nur dem Sieger war der Eintritt in die Siegergruppe gestattet, aus welcher der Amateurweltmeister hervorzuziehen hatte. Die Unterlegenen hatten ein Kissenturnier nach dem Schweizer System zu bestreiten (es werden in jeder Runde Spieler mit möglichst gleichem Zählerstand gepaart). Die von jedem Vertreter einer Nation erteilten Zähler (aus Vorkämpfen und Siegergruppe, beziehungsweise Kissenturnier zusammen) waren zusammenzuzählen und so die im Mannschaftswettbewerb siegreiche Nation zu ermitteln. Fürwahr, ein großangelegter, bewundernswerter Plan! Leider hat seine Durchführung sehr darunter gelitten, dass eben in Frankreich die VIII. Olympiade abzuhalten war, jenen Lande, das im Abbau des Kriegsschasses am wenigsten weit vorgeschritten ist. Demgemäß blieben Deutschland mit seinen zahlreichen Amateurmeistern und die Deutschen der Tschechoslowakei ohne Einladung, auch Nordamerika und die nördlichen Staaten hielten sich fern, Österreich erklärte aus finanziellen Gründen eine Teilnahme für unmöglich, Rußland blieb unberücksichtigt, sogar England entsendete eine ganz unzulängliche Mannschaft.
