## The Lighthouses of Chess

On 23 January the next chess tour of Michael Negele was due, this time to Wijk aan Zee which once again was completely under the spell of the royal game. Only the last part of the trip was very intricate due to some road construction near Beverwijk ...

Let's first attend to the editorial meeting with Tony Gillam and Michael Negele at the home of Winifred and Bob van de Velde in Amsterdam. The biography of Paul Felix Schmidt will probably go to press in coming June and will be released in August, so the project is now approaching the final stretch.

On this occasion two more or less new chess books should be mentioned: Our new US member David Nudelman has kindly sent a copy of his book to Bert Corneth, it is a bibliography of publications on chess and draughts/checkers which have been written in braille and in Russian, and it was already published in 2010 by poezia.us; see the images below, we still link the [title page](#) and the [imprint](#).

On Sunday in Wijk aan Zee, Tony and Michael happened to meet Ervin Liebert, an Estonian chess historian from Tallinn, together with his grandson Erwin. They had a great talk on the two Pauls (Keres and Schmidt), and Ervin offered his future support for the Schmidt biography. By the way, Ervin's English is marvelous, and he even speaks German pretty well. There will be a certain chance to introduce the Schmidt biography also in Tallinn in the course of the Paul Keres year 2016.

The Keres 2 € coin

Keres was the only chess player honored this way (naturally apart from Benjamin Franklin), and that for the second time, as there was already a 5 Krooni note with a portrait of Keres (3 series issued: 1991, 1992 and 1994):

After the bad experiences of the 2015 meeting (finally the costs had to be borne by Guy Van Habberney and Bob van de Velde) the KWA board was not willing anymore to hold an official meeting at such a pricey place. So just as in former times, only an informal meeting had been announced to take place on Saturday afternoon in the Café Sonnevanck.

After all 13 members were present in Wijk, Jurgen Stigter, Tony Gillam, Bob van de Velde, Calle Erlandsson, Ron Bleeker, Peter de Jong, Bert Corneth and Michael Negele came to the a.m. Café. Moreover Leo Hovestadt, Dirk Jan ten Geuzendam, Rob Spaans, Alain Fayard and Nico Pos (the latter only on Sunday) have been spotted elsewhere ...

A series of photos from the informal Saturday afternoon is gathered in this [gallery](#).
