

# CHESS COLUMNS IN NON-CHESS PERIODICALS: MAGAZINES, NEWSPAPERS ...

The list is far from complete and what you see here is just the skeleton of a future improved section! And my main intention is to develop as much as possible the pre-WW I section.

In this chapter I have included not only periodicals with a regular chess column, but also magazines / newspapers where were mentioned any connections with chess, and mainly for the older publications.

After WW II many magazines and newspapers began to include a chess column or chess news. For these, I did not intend to present here more details than a simple mention.
