

Dear members of the Ken Whyld Association,

today I got the parcels with our newest publication -  
so I happily announce:

## **Zukertort is out now !**

It's a nice 288 pages hardcover and the content is really "thrilling", even for people not of German mother-tongue.

Thanks to Raj Tischbierek who made this publication possible, and to Tomasz Lissowski and Thomas Lemaczyk for a very fine cooperation during the last 2 years.

You could order your personal copies (maximum 4 copies per member) at a special KWA-price of 25 EUR for one copy. (The regular price is 29 EUR.) KWA will cover the postage and packaging up to 3 EUR per member, but additional costs especially bank fees have to be covered individually.

So please make up your mind and send your order to me or any other member of the board.

The book will also be available at the member meeting in Amsterdam, so all of you who will join the meeting should be patient, but a pre-order could be helpful.

All the best,  
Michael Negele
