

Bibliography of commemorative publications of German chess clubs

Idea: Romano Bellucci (Venice), 2004
Authors: Ralf J. Binnewirtz, Hans-Jürgen Fresen
Technical coordination; preface: Michael Negele
Publisher: Romano Bellucci

Action

We will include:

German chess clubs founded before 1918 (or 1914)

- clubs which are still in existence and which have published a commemorative book(let); additionally those where we are (still) unaware of a publication.

- clubs which are not in existence any more but have published a commemorative book(let) (such as Schadow's Chess Club).

--> In total: **148 publications** (from altogether 139 clubs).

Each commemorative publication will be represented in our bibliography by a separate entry including

- the bibliographical data according to our fixed pattern,
- comments and notes on the contents of the publication.

Scans of all book(let) covers will be made to

- 1) illustrate our book by a selection of (black and white or colour) pictures;
- 2) to publish all colour scans on a CD-ROM enclosed with the book.

The bibliography will come out in a **bilingual edition** (English/German).

Format & design similar to other books of the publisher (such as the last book on the problemist G. Guidelli).

Our objective is the publication in the second half of 2006

Work done till now (Sept. 2005):

66 scans of book(let) covers,
83 bibliographical entries completed (in German).
