## Busnardo Lorenzo

**Stefano Zulian** has sent us his essay on a 16th century chess player, **Busnardo Lorenzo**, a priest born in Veneto, and his discovery. We hope that an English version will be available soon. For our Italian speaking members the contribution is linked in our [member section](#).

Stefano Zulian has been a member of the Marostica Chess Association for more than 20 years, he and Antonio Rosino have published two articles on the above subject in the March issue of *Torre e Cavallo*.
