Frank Hoffmeister - 100 Jahre Belgische Schachgeschichte - frontcover (German edition)

In 2020 the [Royal Belgian Chess Federation](#) exists 100 year. As a contribution to the celebration of this jubilee our member Frank Hoffmeister wrote a personal homage to the Federation, 100 years Belgium chess history, and included 50 games of historical interest. As is not unusual in Belgium when more or less official publications are meant for national dissemination, the book has been written in the three languages of the country, Dutch (also called Flemish), French and German.

One year later than the Belgium Federation the French Federation was founded and in 1924 the Belgium Federation belonged to the founding members of the FIDE.
