Later on we had a look at the Collection of chess books "Domingo L. García Forcada" acquired by the Biblioteca Valenciana (Valencia's Library) in 2002. In a very advanced phase of cataloguing the collection has more than 3000 volumes.

Let's remember that the Biblioteca Valenciana, situated in Valencia in the Monastery of San Miguel de los Reyes, edited the book of José A. Garzón "En pos del incunable perdido" (2001). This work is included in the "Digital Biblioteca Valenciana" <http://bv2.gva.es>.
